Essonnes, France

Full-Stack Development · Automation · Systems Architecture

Summary

3rd-year Computer Science student (MIAGE) at Université d'Évry Paris-Saclay, self-taught full-stack developer since 2020. Used to building complete systems, from design through to production, with a rigorous and independent approach. Equally comfortable building interfaces and the technical architecture running underneath them.

Technical Skills

Web & Mobile Development

- React, React Native, Node.js, JavaScript, HTML/CSS

Languages & Automation

- Python, automation scripting, data-oriented architecture

Video Rendering & Low-Level Systems

- WebCodecs, FFmpeg, CEF (Chromium Embedded Framework), video demuxing (mp4box), shared memory

Integration & Deployment

- REST APIs, AI/LLM model integration, cloud deployment with automatic failure recovery, Git

Experience

Rendr — Video Rendering Engine

2025 – present

Personal project

- An engine that turns JSON files into videos, quickly and efficiently, built for automation, large-scale video production, and A/B testing of variants.
- Rebuilt from the ground up (v2) for reliability and speed, now used in production to power an automated publishing system.

Shorts Engine — Large-Scale Video Production System

2025

Personal project

- A system able to run several independent content channels in parallel from one shared infrastructure, each with its own tone and identity, with no human involvement.
- 417 videos published on YouTube, across 3 channels, over 3 months, running fully unattended (including two weeks with no oversight), with a 99% success rate.

Store Associate — Coccinelle Express, La Guerche-de-Bretagne

Summer 2025

- Part-time position: checkout, shelf stocking, customer service.

Store Associate — Coccinelle Express, Champcueil

2023 – mid-2025

Regular shifts: holidays, weekends, peak periods

Education

BSc, MIAGE (Computer Science Applied to Business Management), 3rd year

in progress

Université d'Évry Paris-Saclay

Certifications

Pix — Advanced Level 1 (561 pix)

January 2025

Université d'Évry Val d'Essonne

CS50x — Introduction to Computer Science

Harvard University (via edX)

Languages

French — Fluent · English — Fluent · Arabic — Fluent
